

BRAVE MEN FIGHT FOR THEIR LIBERTY

Boers Deliver a Stunning blow to The British Troops In South Africa.

CAPTURE 2,000 MEN AND EIGHT GUNS AT LADYSMITH.

Entire Left Wing of the British Army Surrounded and Taken—Gen. White Takes the Blame and May Resign—Boers Advancing On the Town—England Hurrying Re-Inforcements to the Scene of Conflict—Buller Arrives In Cape Town and Orders 10,000 Additional Troops—Boers Besieging Kimberley On All Sides—News of the Disaster Startles All Great Britain.

Ladysmith, Oct. 30.—(Special Cablegram to The Gazette).—A column of troops consisting of the Irish Fusiliers, Tenth Mountain Battery and the Gloucester regiment sent against Boers Sunday were surrounded and captured by the Boers. The British officials confirm this news.

Among those captured were Major Adee of White's staff; Lieutenant-colonel majors, captains and lieutenants of the Irish Fusiliers; the majors, captains and lieutenants of the Gloucester regiment; Major Bryant of the Royal artillery and all the lieutenants of the Mountain battery and also the chaplain of the Irish Fusiliers. Many of the captured officers and men are wounded. The British have retired within their re-trenchments. More heavy guns un-shipped from the cruiser Powerful are arriving at Durban.

ALL ENGLAND WAS STARTLED

White's Left Wing Captured By Boers Consisted of 2,000 Men

London, Oct. 31.—[Special Cablegram to The Gazette].—Gen. White's left wing which surrendered to the Boers is believed to consist of 2,000 men with eight guns. The news of the disaster was received with stupefaction in military circles.

All England was startled at the news of the first severe disaster to the British, Gen. White wiring from Ladysmith at midnight, reports:

"The column was sent to guard a hill on our left flank and was surrounded in the hills and after losing heavily had to capitulate. The casualties have not yet been ascertained. The Boers' orderly came into our lines this evening under a flag of truce with letters from the survivors of the captured column asking for assistance to bury the dead. I fear there is now no doubt of the column's capture. I formed the plan in the working out of which disaster occurred and am alone responsible. The troops are not blameworthy as their position was untenable."

THINK THAT WHITE MAY RESIGN

He Cannot Again Take the Offensive Toward the Boers.

London, Oct. 31.—[Special Cablegram to The Gazette].—General White's statement that he takes all the blame for the disaster that befell his left wing yesterday, is regarded here as tantamount to an offer to resign his command.

The news of the capture of General White's left wing fills everyone with the greatest alarm for the safety of Ladysmith. How General White came to subject his left wing to such a disaster, is almost forgotten in what White will do now.

He has almost lost twenty per cent. of his fighting force and eight per cent. of his fifty guns at one crack. Yesterday he had every available man engaged against the Boers and, reading between the lines of official reports and dispatches of the English correspond-

DEWEY ANNOUNCES HIS BETROTHAL

WILL MARRY MRS. W. B. HAZEN SOME TIME NEXT MONTH.

Blushed Like a School Boy—The Bride-Elect Is Sister of John R. McLean, Candidate For Governor of Ohio, and Wealthy and Beautiful—A Chat With the Admiral.

Washington, D. C., Oct. 31.—The engagement of Admiral Dewey to Mrs. W. B. Hazen, widow of General Hazen, formerly chief of the signal corps, and sister of John R. McLean, democratic candidate for governor of Ohio, which for some time past has been discussed in the newspapers as a probability, is now officially announced. The admiral himself made the announcement to a delegation from Tennessee, who called at his home recently by appointment, to invite him to Nashville.

Representative Gaines headed the delegation, consisting of members of the former First Tennessee volunteer regiment, and made a short address, extending the invitation. The admiral replied that much to his regret he was compelled to decline the courteous invitation, as the work of the Philippine commission would not permit him to leave Washington.

Blushed Like a Schoolboy

Then he hesitated a moment and seemingly confused, paced up and down the room two or three times. Suddenly he turned to Mr. Gaines and said: "And then there is another reason."

Another little pause, after which he concluded, blushing like a schoolboy: "Today I have become engaged to the loveliest little woman in Washington, Mrs. Hazen, and so you see it is impossible for me to go to Nashville."

Of course profuse congratulations were offered by the visitors, who withdrew after a pleasant chat with the admiral.

Couldn't Keep It Secret

It was learned that Admiral Dewey paid a visit to the McLean mansion yesterday morning, when he made his proposal of marriage to Mrs. Hazen and was accepted.

Mrs. Hazen has no children, and since her husband's death, about ten years ago, has made her home with her mother. She is a woman of large means, about 40 years of age, and popular in the best social circles of Washington.

HOVERING NEAR DEATH

Vice Pres. Hobart's Family Gathered at His Bedside Awaiting the End.

ALL HOPE IS OVER

HE WAS VICTIM OF A SERIOUS RELAPSE LAST NIGHT.

All Chances For His Recovery Abandoned By Relatives and Friends.

He Was the Confidential Friend and Advisor of President McKinley—A Broad Minded, Square, Honest Man Whose Presence Will Be Missed In the Councils of the Nation—According to a Constitutional Provision, Senator Frye as President of the Senate Will Become Vice President If Mr. Hobart Dies.

Paterson, Oct. 31.—(Special Telegram to The Gazette).—Garrett A. Hobart, vice president, still lies at death's door this morning. The family are gathered at the bedside and are prepared for the end.

At noon the vice president's condition showed little improvement.

MR. HOBART IS VERY NEAR DEATH

Little Hope of His Recovery Entertained—Turn in His Condition.

Paterson, N. J., Oct. 31.—Vice-President Hobart, who has been ill for weeks at his home here, suffered a relapse yesterday morning and this morning it is feared the end is very near. At 1 o'clock this morning a doctor was hastily summoned to the house, and indications are that there has been a serious turn in the vice-president's condition.

Vice-President Hobart has been ill ever since the close of the last congress. Dr. W. E. Newton says that just before 2 o'clock yesterday morning Mr. Hobart's condition was more critical than it had been at any time during the eight months he had been ill. After the passing of the critical period at 2 o'clock yesterday morning, he rested easily until daylight, when he began to gain strength again, and during the day he was in good spirits and improved some. During the day he had been able to sit up in bed, and he was able to talk with Mrs. Hobart and their son Garret, Jr.

Dr. Newton refused to make any definite statement as to the cause of Mr. Hobart's illness. He said, however, that the report that Mr. Hobart's mind was in any way affected by the illness was untrue. This statement was also made by members of the family and by Hobart Tuttle, the vice-president's secretary. Dr. Newton said he might make a formal statement relative to the illness of Mr. Hobart within a few days.

McKINLEY AND HOBART FRIENDS

The Most Confidential Relations Existed Between the Two

Washington, Oct. 31.—President McKinley has known for several days that Vice President Hobart's condition was critical, but did not consider it advisable to alarm the country, preferring to treat the information as confidential and confined to the members of the cabinet only. Not in many years have relations between president and vice president been so cordial as during the present administration, and that almost from the moment their names were associated as candidates on the republican ticket. Not only has there been the most perfect harmony between the two officials, but a warm and enduring personal friendship has made their relations particularly happy.

No member of the cabinet has been in closer confidential relations with the President than has the Vice-President. When there were delicate missions to be undertaken either inside or outside the administration Vice-President Hobart was more often than any other called upon for advice and tactful service. He, as the President's representative, deals with delicate situations in the Senate and even in the Cabinet. Thus it was, Mr. Hobart, to whom was assigned the delicate work of explaining to Secretary Alger that the President desired his resignation.

Vice Presidential Succession.

Should Vice President Hobart resign or die, he would be succeeded in the office of president of the senate by Senator William Pitt, Frye of Maine, who is the president pro tempore. As for the office of vice president, to which Mr. Hobart was elected, that would remain vacant until the choice of a successor by the people in November of next year. Since the formation of the government, fourteen senators have been acting vice president by reason of the death

THE GAZETTE AGENCY
J. W. Clark, Manager.

AMUSEMENT NOTES.

Myers Grand opera house never had a larger house than that which packed this amusement resort from top to bottom last night. The Ferris Comedians made a good reputation in Janesville during a previous appearance and they certainly sustained that good impression last night.

"My Jim" is not much of a play. It lacks system, probability and some other things, but it makes an admirable vehicle to carry a sensational story of love and villainy and marriage. The situations were considerably strained very often, but the acting was in the main very good. Ferdinand Graham, Dick Ferris and Sam Mylie carried their parts in an artistic and finished style, while Grace Hayward made an excellent impression. This evening "An Innocent Sinner" will be given. It is a character play by Marston, and is to be well handled. Specialties will fill up the time between the acts. The combination is worth seeing and full houses at each performance are likely.

"Hunting for Haskins," a new, original, American farce comedy by Guy F. Steeley, of the Chicago Inter Ocean, will shortly be presented here. Mr. Edward Girard, for many years one of the firm of Donnelly & Girard, and Mr. Edward Garvie, connected with Hoyt's companies for some years, are featured in the cast. The comedy is said to abound in bright and witty lines, clever situations, and altogether a clean and wholesome performance.

America's Position in China.

New York, Oct. 31.—A Washington dispatch to the World says: "The government of the United States will soon be formally asked by the leading governments of Europe to select some specific port or portion of China as its base of commerce, and to restrict its efforts to develop trade to that particular sphere. The cause of the urgency of the foreign governments is the fact that, with the United States occupying a base in the Philippines and holding Honolulu, Guam and Manila as intermediary depots, oriental commerce would naturally tend toward San Francisco, without regard to what was the original place of Chinese export or in what sphere of influence it started. The desire of the European powers naturally is that the United States should confine itself to a definite base rather than to continue a threatening factor in all the open ports of China."

McGiffert Will Not Resign.

New York, Oct. 31.—Failure has met the efforts of the committee appointed by the New York presbytery to induce Prof. Arthur C. McGiffert of Union Seminary quietly to resign from the Presbyterian ministry. At the final meeting of the committee it was decided to report to the presbytery at its next meeting Nov. 13. The opinion in Presbyterian circles is general that, with the decision of Prof. McGiffert not to withdraw, the trial of another Union Seminary professor for heresy will be difficult to avoid.

Will Enlist 1,000 More Men.

Washington, Oct. 31.—Although the last of the twelve additional volunteer regiments authorized by the president has been fully recruited, the work of securing additional troop ships for service in the Philippines will not stop. It has been decided by the secretary of war to enlist at least 1,000 more men for service under Gen. Otis. With the arrival of the Thirty-second regiment of volunteers on the steamship Glenogle, Gen. Otis has under his command over 39,000 soldiers.

Smallpox at Benton Harbor.

Benton Harbor, Mich., Oct. 31.—State Smallpox Inspector Dr. George E. Ranney of Lansing examined some cases of contagious disease here Monday and pronounced them to be a mild form of smallpox. He said the quarantine provisions adopted were excellent, and no quarantine of the city will be ordered.

Betting on the Big Battle.

New York, Oct. 31.—Betting on the big fight is livelier now than at any time since the match was made. The prevailing odds are 10 to 7 on Jeffries, and many Sharkey backers are putting out their money at these figures. Considerable money has already been wagered.

For Germany's Claim in Samoa.

Berlin, Oct. 31.—The Vossische Zeitung says it understands Great Britain has offered Germany the Gilbert islands and the British portion of the Solomon islands in return for a renunciation of Germany's claims in Samoa.

NO PROMISE OF INDEPENDENCE.

Senor Artachio Denies the Statement Made by Aguinaldo.

Hongkong, Oct. 31.—Senor Artachio, whom Aguinaldo many months ago was said to have ordered shot, but who was rescued from the Perez-Dasmariñas prison when Gen. Wheaton captured the city, denies the truth of Aguinaldo's statement, in his proclamation, to the effect that the American consuls at Manila and Hongkong, Messrs. Williams and Wildman, respectively, promised the Filipinos independence. "No such promise could have been made," Senor Artachio says, "without my knowing it."

Aguinaldo Waiting on Congress.

London, Oct. 31.—Senor Antonio Regidor de Jurado, who, as reported by cable from Manila, was appointed envoy to Washington in behalf of the Filipinos, arrived in London Monday morning from Madrid. In an interview he declared his countrymen would not stand a military government. He said Aguinaldo was waiting to see what congress would do.

Border War Due to Saloons.

Washington, Oct. 31.—Gen. Merriam at Denver telegraphed the adjutant-general, under date of Oct. 28, as follows: "Capt. Wright, with half troop Ninth cavalry, in camp at Naco, on Mexican border, Oct. 26, reports consultation Mexican officers; further trouble not likely; saloons on Mexican side responsible for disorder. Wright will remain at Naco; instructed to allow no armed men to cross Mexican line from either direction, arresting and disarming if they persist."

Coal Miners Resume Operations.

Spring Valley, Ill., Oct. 31.—The mines of the Spring Valley Coal company started work Monday, after a ten days' strike, which is estimated to have cost the company not less than \$25,000. There is a feeling among the miners that a raise of 27 cents a ton should be demanded, making the miners' wages 80 cents.

SOLDIERS SAY "HOLD ON."

Straws show which way the wind blows. A dispatch from Taylorville, Ill., says that Newton W. Powers of that city, who has just returned from the Philippines, is, though a democrat, decidedly in favor of retaining the islands. Powers was a corporal in the First South Dakota regiment, which was in a number of engagements, and sustained a loss of fifty men. He believes four-fifths of the soldiers who have been in the islands are expansionists. A poll of Powers' regiment was taken at Aberdeen, S. D., after its return, and there were but six members opposed to the policy of the administration. Powers says that Otis is now well liked by the soldiers, though at first he was generally disliked because his methods were not understood by inexperienced troops. He believes Otis' methods of campaign, as experience has shown, could not be improved upon. He predicts Aguinaldo's unconditional surrender within three months.

LONG FELT WANT

Milwaukee Journal—Our greatly esteemed contemporary, The Janesville Gazette, says:

If the Milwaukee Journal should change its time of publication from evening to morning, and embrace the republican faith, it would fill a long felt want.

Considering the fact that the circulation of The Journal in Milwaukee alone is greater than the total circulation of any other daily paper printed in the English language in this city, we cannot help feeling that The Journal, as it is, already fills a somewhat felt want.

But by making the change we suggested, you can fill another. Do you not think that a morning republican paper, published in Milwaukee, and run in your snappy style, would be popular throughout Wisconsin?

So the "original order" for the "repairs" on Fourth Avenue, provided for the use of crushed stone. Well, what of it? There is a difference between hauling on a few loads of crushed stone and doing a complete job of macadamizing, just the same. The "original order" cuts no figure. The work was illegally done, and no two wrongs ever made a right.

Evening, Wisconsin—Miss Helen Gould has more common sense than William Jennings Bryan. She is not going to worry about the harem of the Sultan of Sulu until she has satisfactorily solved the political problem having reference to the harem of Congressman-elect Roberts of Utah, which is considerably nearer home.

We are told that a paper called The Recorder has been saying some mean things about us of late. The name is familiar, but we really can't place the paper. Where is it printed?

The Milwaukee Evening Wisconsin appears to have taken Billy Mason's measurements accurately when it says he "would rather blush for his country than fight for it."

The freight car famine is causing the railroad managers to turn grey. The roads cannot carry the shipments offered them in these piping days of prosperity.

Luckily, the new electric railway is not run on the part of Fourth avenue that was recently "repaired."

The man who never drew an honest breath is generally the first one to question the honesty of others.

Senator Billy Mason will not resign, so the country may be considered as tied over another crisis.

of the duly elected vice president or his elevation to the presidency.

The only duties performed by the acting vice president of the United States are, of course, those of the president of the senate, as the sole official function of the vice president is to preside over the deliberations of that body.

His First Fee as a Lawyer.

Mr. Hobart made his first fee as a lawyer for drawing a will for which he got \$800. With this start in his profession the future vice president married and started on the road to success. He fell into a class of commercial practice and receiverships and soon developed a great business capacity for organization. His influence extended far beyond New Jersey and his hand was felt in the organization of great transportation companies. In addition to being the head of a dozen corporations in New Jersey when he was elected vice president Mr. Hobart was a leading factor in the Joint Traffic association and his hand deep down in railroad matters.

RAISIN-MAKING IN CALIFORNIA

Process of Getting the Fruit in Shape for Shipment.

The gang moves in a bunch, clipping off the translucent clusters of muscatels, arranging them upon the trays to shrink and shrivel under the rays of the sun into the concentrated delicacy we know. Behind them the lines of trays lie, a basking array of shimmering fruit, and some one interested is shoving the clusters together, that the tray shall be honestly filled, for the workers are paid by the tray. After two weeks' exposure in the dry heat the filled trays are ready to be turned so that the grape may be cured evenly. This is accomplished by two men, one on either side, placing an empty tray over the full one, dexterously reversing it, then, carrying the process on down the row. It is at this stage in the curing that the grape is most delectable. The amber is changing through ruddy stages to amethyst, and the sun-warmed balls are drops of honey—double distilled, so sweet they make you long with a great thirst for the red water tank shimmering in the sunlight forty acres away; but you must eat and eat, and go on eating even while your palate is cloying with the sweetness. In another week the dried grapes are ready for the sweat boxes. These wide, open boxes contain from 150 to 160 pounds, and as the raisins become sufficiently cured they are sorted from the others and placed therein, the large, perfect clusters and the inferior, broken pieces in separate boxes. They are usually carried to a sweating-house, a closed structure, in which they soften and moisten evenly, the drying having made the stems exceedingly brittle; or simply stacked in one corner of the packing-house to await the grading and packing.—Land of Sunshine.

Dog as Alms Collector.

London correspondent Chicago Record: A well-known figure has been missing for nearly a fortnight from the metropolitan stations of the London & Southwestern railway, and the police have been baffled in their efforts to trace him. This is the company's black retriever dog Jack, well known to all who travel by the railway, for he used to patrol the platforms of the Waterloo station with his tin box fastened to his back to receive alms from all who would give for the benefit of hospitals and other deserving charities. Five years ago the dog was enlisted in this charitable service by his owner, a servant of the Southwestern company, for the purpose of collecting for the railway orphanage fund. Jack is a big, curly-haired retriever with white points, and his collections usually amounted to very nearly \$150 a year.

Yachting on Salt.

Save during the rainy season, Lake LeRoy, in western Australia, is quite dry. But as the water evaporates as the hot weather approaches, a smooth, glassy floor of crystalline salt is deposited. Those living on the shores have found a means of utilizing this. All boats which sail on the lake when possible are, during the rainy season, fitted with four wheels, and thus are enabled to continue their travels. As Lake LeRoy has an area of 100 miles, and the surrounding country is extremely rough, this means a great saving in expense, labor and time. The speed attained by these wheeled yachts is very considerable, though not quite equal to the pace of the ice yachts so popular in Canada.—Cincinnati Enquirer.

No Deception Used in Talking About Morrow's Kid-ne-oids.

The Arguments in Their Favor Come From People Who Have Tested Their Merits.

There is no deception in anything we publish about Morrow's Kid-ne-oids. All our statements are facts and are from people right here in Wisconsin. People in all walks of life are using and recommending Kid-ne-oids because they cure backache, nervousness, sleeplessness and general debility in cases where other remedies have failed.

Mrs. P. Jenkins, 618 Broad street, Br-
lois, Wisc., says: "I take pleasure in recommending Morrow's Kid-ne-oids to any person suffering from kidney backache. A sample of Kid-ne-oids used according to directions removed the pain from the small of my back and I have not been troubled with backache since."

Morrow's Kid-ne-oids are not pills but yellow tablets and sell at fifty cents a box at all drug stores and a The People's Drug Store.

Mailed on receipt of price. Manufactured by John Morrow & Co., chemists, Springfield Ohio.

ELECTRIC ROAD CREATES MUCH TALK

COMMON COUNCIL HANDLE THE QUESTION

Came Before the Regular Meeting Last Evening and Was Referred to the Highway Committee and the City Attorney—Fourth Avenue Also Up For An Airing.

Application for a franchise for the right of a way through certain streets in the city of Janesville for the construction of an electric interurban line from Rockford, Illinois to Madison, Wis., was brought before the common council last evening at their regular meeting.

After the reading of the petition by Clerk Badger the matter was referred to the city attorney and members of the highway committee. This proposed road is the one of which a lengthy account appeared in the columns of The Gazette last evening.

Fourth Avenue Row.

The repairing of Fourth avenue and the want of better fire protection, were the two leading topics under discussion by the members of the council. Mayor Richardson called the meeting to order at 7:30 o'clock, all the city fathers being in their seats except Alderman (Gillkey).

The Fourth avenue macadamizing fracas then broke out afresh. Alderman Peters and Alderman Carpenter captained the opposing forces, and for a time there was plenty of warm talk in the air. Alderman Carpenter asked if Alderman Palmer's report included work on Fourth avenue, and when told that it did, he sent the first shot into the battle by declaring that he opposed the paying of any bills that had anything to do with settling for the macadamizing work that had been done on Fourth avenue.

He further stated that because certain city officials had done wrong in the matter, was no reason why the city should be obliged to settle for their mistakes. Further than that he thought the street commissioner should settle the bill if he was responsible for the work done. If the city sanctioned the payment of the work it would mean the taking of an illegal step, for which all the aldermen would be held liable. Then the city fathers, each and every one, had their say on the question.

Alderman McLean said that the men who worked on the street should be paid for their labor. Alderman Carpenter said that that was his idea exactly, but that he did not propose to have the city settle the bill.

Mayor Richardson stated that he did not think that the council was liable for mistakes made by the street commissioner. City Attorney Burpee said that under the present law, members of the council were not liable for voting for these bills.

After a lively debate the report of the finance committee was adopted by a vote of 7 to 2.

Additional Fire Hydrants.

The Blodgett Milling Company and D. K. Jeffris have asked for better fire protection to their North River street property. Ald. Kothman of the fire committee introduced an order that the Janesville Water company be requested to lay a water main not exceeding 400 feet in length from a point on North River street, selected by the fire and water committee, and the chief engineer, across the raceway, locating thereon one hydrant. Adopted. All voted aye except Ald. Carpenter.

Ald. Carpenter said that such a plan was a bad one for it favored individual property owners at the expense of the city. "If you back up to every factory in town with a fire hydrant you will soon find the city in fine shape financially," said the Third ward alderman.

The report of the committee was adopted, all voting aye except Ald. Carpenter.

A communication was read by Clerk Badger from Mrs. Ella Addy who resides at the corner of Wall and North Franklin streets. Mrs. Addy objected to a certain frame building that had been moved near her property of late. She requested that the difficulty be remedied. The petition was referred to the fire and water committee.

Street Work Orders

Ald. McLean—An order for a new sidewalk at the approach of the northeast corner of Monterey bridge on Center avenue. Repairs on Center avenue between Center and Pleasant streets with crushed stone. Adopted.

Ald. Carpenter—To repair the gutter on the east side of Milton avenue across Harrison street; a block crosswalk on the south side of South Third street; also a block crosswalk across Harrison street on the south side of Court street; that the street commissioner put in a double eighteen inch tile drain across South Main street on the south side of Carriage street and extending about eighty feet westerly of South Main street, and remove the street car switch on Milton avenue; to build legal sidewalks on Milton, Milwaukee and Prospect avenues. Adopted.

Ald. Rice—An order to repair Academy street from Milwaukee street to the Chicago & Northwestern R'y tracks, also to repair Washington street from Highland avenue to Magnolia avenue. Adopted.

Ald. Rice—An order that the street in Mole & Sadler's addition, heretofore known as Elinor Place, and the street extending westerly of and in a line with said Elinor Place be and the same shall hereafter be known as Ashland avenue. Adopted.

Ald. Hutchinson—An order to repair Fourth avenue in the Second ward from Hickory street to Bluff street. Adopted.

FOUR PHONE LINES FROM BOWER CITY

WISCONSIN COMPANY PLAN EXTENSIVE WORK.

Will Benefit Janesville By Giving Most Excellent Services.—Dubuque, Madison and Milwaukee Are Interested—Material Has Already Arrived in the City.

Material has arrived in Janesville for the construction of four new toll lines to be erected by the Wisconsin Telephone company. These lines will start from the Bower City and will have as their terminals the cities of Madison, Dubuque and Milwaukee.

The work of construction will commence within the next few days it being the intention of the Wisconsin company to rush the work to completion. One car loaded with wood cross arms has already arrived in the city and tons of copper metallic wire will be necessary to carry out the work.

Several gangs of men will be sent here to commence the work and for a time these crews will make their headquarters in Janesville.

The Janesville-Madison toll line will likely be via Indian Ford, Stoughton and Edgerton.

The Janesville-Dubuque line will be a double line via Brodhead, Monroe and Platteville.

The Janesville-Milwaukee line will be via Whitewater and Waukesha.

Setting of poles along the routes to be traveled will not be necessary as the poles are already in place. Wire to be used will be of the best copper metallic grade.

Manager Slater of the Janesville exchange, in speaking of the erection of these new toll lines said:

"Additional outside business demands these new toll lines. During the month just passed local toll line business shows in increase of over \$100 as compared to the business last year. We are also making extensive repairs in the Janesville office and will soon have it as complete as any in this part of the state."

DEER HUNTERS APPLY FOR MANY LICENSES

CLERK STARR SAYS NUMBER NOW REACHES 541.

Rock County Sportsmen This Year Are More Numerous Than Ever.—Janesville Deer Hunters Are Right to the Front As Usual.—Season Commences Tomorrow.

County Clerk Starr this morning reported having issued 541 state hunting licenses to Rock county hunters. Not in years have as many sportsmen applied. These licenses cost the hunters one dollar each and entitle him to hunt certain game in the Badger state during their respective seasons.

Janesville this year contributes many deer hunters to the list the following local sportsmen having applied for licenses:

S. Severhill, C. L. Valentine, John Christensen, R. W. Edden, George Christensen, J. W. St. John, R. R. Powell, J. A. Sutherland, W. H. Appleby, T. W. Goldin.

Beginning tomorrow deer can be legally shot in Wisconsin, and during the following twenty days the forests in the northern part of the state will teem with nimrods who delight in the excitement of the chase. Fully 100 Milwaukee sportsmen have secured transportation to the stations where they are accustomed to go every fall in search of venison, and the trains passing through Janesville for the north today, were comfortably filled with hunters. Each hunter is privileged by law to bring two deer home with him, but the non-residents will be obliged to forego the enjoyment of Wisconsin venison at home as the laws of the state prohibit the shipment of game out of the state.

MERRY HALLOWEEN HERE THIS EVENING

COURT STREET M. E. CHURCH
GAVE SOCIAL.

Held Last Evening in the Parlors and Was Well Attended—Numerous Social Functions Are Scheduled For Tonight—Small Boys Had Better Go Slow.

There is a merry time scheduled for Janesville this evening. It is Halloween night, the time when ghosts and goblins and other creatures of more or less questionable character, have sole possession of the earth. The small boys as usual on such occasions, will be in his element and sidewalks and gates of uncertain stability will be very apt to move from their normal positions.

While Halloween parties in the last few years have fallen somewhat out of vogue, there will doubtless be some persons who will gather tonight to test their fate by the good old infallible methods of bobbing for apples, dodging around corners, visiting churchyards and carrying out the prescribed formulas peculiar to Halloween.

Halloween, or All Hallow Even, the name given to the night of October 31, is a curious intermingling of classic mythology, Druidic beliefs and christian superstition. The festival, which has existed from the time immemorial, was appropriated by the early christians and thus perpetuated. To the superstitious it is the night of all nights for divination, and the best night for glimpses into the future, and especially for visions of husbands to be. On these offered opportunities are based nearly all the Halloween games.

Remember one thing, first of all—the kitchen is the abiding place of the fairies and genii who are supposed to preside over all Halloween ceremonies. See that there are plenty of apples in the larder, and let the pop corn and molasses taffy sizzle over the coals. If you are over-punctilious about lucky omens, a blind man with a fiddle will insure a more auspicious visitation of the genii and fairies.

Social at Court Street Church.
At the Court Street M. E. church parlors last evening a Halloween social was given and many gathered to enjoy the fun.

Miss Woodbury's club of guitars, banjo and mandolin players made music that was charming and gave evidence of a strong musical combination. They responded to several encores.

George Robinson and Ed. Smith both sang with good effect and both were obliged to respond. Mr. Hanson played charmingly on the mandolin. Elbel Pond was the good fairy who told fortunes and gave prizes for those who drew in life's lottery fortune, fame and honor. These were represented by Mabel Isaacs, Mamie Caniff and Casey Nott. Much credit is due to Mr. and Mrs. J. L. Hay, Miss Leona Stevens and others who aided for the success of the social.

Numerous house functions are scheduled for this evening in all portions of the city.

DAMAGES BY BULL NOT COLLECTIBLE

HERMAN REINCKE DEFEATED IN HIS SUIT.

Judge Lyon of Walworth County Court Found In Favor of the Phelps Estate—Case Is Liable Now to Find Itself Into the Higher Courts.

Judge J. W. Sale received papers from Walworth county containing Judge Jay F. Lyon's decision in the case of Herman Reincke vs. the estate of M. M. Phelps. Judge Lyon found for the defendants, disallowing the claim made by the plaintiff.

Reincke brought suit for \$1000 damages for injuries alleged to have been received as the result of being attacked by a ferocious bull belonging to the late Judge M. M. Phelps.

Reincke resides in the town of Rock and alleges that while leading a cow past the Phelps' farm he was attacked by a bull belonging to the Phelps' estate. The animal, he alleges, badly gored him and inflicted injuries from which he was ill several weeks.

At the June term of the Rock County court the case was heard and from this county was taken to Walworth county at Elkhorn. Here it was tried by Attorney J. J. Cunningham for the plaintiff. Judge B. F. Dunwiddie, as executor of the M. M. Phelps estate, appeared for the defendants.

It is now said that the plaintiff intends to carry the matter to the higher courts.

Attention, Masons!

SCHLEY GOING TO AFRICA.

Navy Department Will Make No Change in Orders.

Washington, Oct. 31.—Secretary Long said Monday he did not contemplate making any change in Admiral Schley's orders. So far these are nothing more than a direction to take command of the South Atlantic station. The date will be definitely fixed when it is known exactly how soon the Chicago will be ready for sea. Nothing has been decided by the government as to the dispatch of one or more ships to South Africa. Secretary Long pointed out that that section of the world is within the geographical bounds of the South Atlantic station. Therefore Admiral Schley will be at perfect liberty to go there, or anywhere else on his station after he takes command. No order from the department will be necessary in such a case.

Respecting the mooted increase of the strength of the South Atlantic squadron, the secretary said he would not hesitate to increase the number of ships on the station if there were necessity for it. So far the necessity has not appeared and, therefore, it is not contemplated to have more than the three vessels, the Chicago, the Montgomery and the Wilmington, on the station.

OUR POSITION AS TO SAMOA.

United States Government Will Act Independently of Europe.

New York, Oct. 31.—A special to the Herald from Washington says that some progress is being made in the negotiations between the three governments signatory to the Berlin treaty to the settlement of Samoan claims. The character of the settlement cannot be stated at this time, but it can be said with authority that the president has no intention of agreeing to any proposition whereby the United States will contribute an equal share with Germany and Great Britain to satisfy the claims. The authorities are of opinion that this government should not pay one cent toward the settlement of the claims.

This opinion is based upon the principle that, while an American ship committed the damage which created the claims, yet the cause of her act was the conduct of German officials in exciting the natives to armed resistance.

It doubles the joy of the human heart, brightens body and brain. That's what Rocky Mountain Tea will do. 35 cents. Smith's Pharmacy, kodak agents

The Cruel Knife!

It is absolutely useless to expect a surgical operation to cure cancer, or any other blood disease. The cruelty of such treatment is illustrated in the alarming number of deaths which result from it. The disease is in the blood, and hence cannot be cut out. Nine times out of ten the surgeon's knife only hastens death.

My son had a most malignant Cancer, for which the doctors said an operation was the only hope. The operation was a severe one, as it was necessary to cut down to the jaw bone and scrape it. Before a great while the Cancer returned, and began to grow rapidly. We gave him many remedies, but nothing helped. Then I read of S. S. S. (Swift's Specific) and decided to try it. After twenty bottles had been taken, the Cancer disappeared entirely, and he was cured. The cure was a permanent one, for he is now seventeen years old, and has never had a sign of the dreadful disease to return.

LATE NEWS BY TELEGRAPH.

DECISIVE CONFLICT RAGING.

Gen. Joubert Attacks the British Position at Ladysmith.

RESULT OF BATTLE UNKNOWN.

British Authorities Claim the Victory, but Admit Very Heavy Losses—Hostilities Will Certainly Be Continued Today—Boers' Artillery Effective.

London, Oct. 31.—Gen. White, at the head of 12,000 British, and Gen. Joubert, commanding 16,000 Boers, measured arms in the vicinity of Ladysmith yesterday, and the British, as usual, claim the victory, but in the official reports, which are glaringly half-hearted, the British admit casualties of from eighty to 100. The Boer loss is said to be much larger.

Later reports may tell a different story, as the battle is evidently unfinished. The two armies fought from daybreak to the middle of the afternoon, when both apparently took a recess.

That hostilities will be reopened today is considered certain.

Joubert began the fight about 5 o'clock yesterday morning, firing several 100-pound shells in the direction of that part of the British force stationed near the railway station. Their ammunition was good and their aim excellent.

Gen. White was fully prepared, and first ordered the artillery fire returned and then ordered out a large force of cavalry and infantry to advance upon the Boer positions. The British claim the Boers failed to stand their ground and retreated.

White's forces followed up the supposed advantage, but soon found themselves face to face with a large army of Boers, who were all well armed and full of fight. The fighting raged fiercely until shortly before noon, when White withdrew without having forced the Boers within their laagers, and with a loss which will undoubtedly prove heavy.

The Boers in the meantime kept up their artillery fire, and, besides playing havoc with the British troops, stampeded about forty mules used for transporting the heavy guns. The British were so busy using their small arms that they were unable to look after the mules, with the result that six good cannon are missing.

White explains in his report that he was unable to play effectively against the big Boer guns until he got what he describes as the naval guns into action. The latter are said to be four and a half inch rapid-fire guns brought from the Philomel and served by blue jackets. They have a range of 10,000 yards and throw a fifty-pound shell.

One newspaper, trying to account for the British retirement, says that presumably the Boers were driven back until they reached strong positions, which White naturally refused to attack.

It is quite likely that White saw he was up against a hard game, and rather than take a chance fell back in the direction of his own camp, in the hope that the Boers would seek a rest after the hard day's fight, and give him additional time to get further reinforcements from Durban.

The British insist that the situation at Ladysmith is in no sense critical, explaining that the Boers ought to have cut off all communication and closely invested the vicinity of Ladysmith if they wished to take it, and that now is not the time to capture it by siege. If they advance south, leaving White's army intact, they will be in danger of having their own retreat cut off when the reinforcements arrive or the British in Cape Colony make an offensive move. Gen. White is said to be supplied with plenty of food and ammunition and backed by a force as good as any ever sent into the field by Great Britain.

Gen. Buller arrived at Table bay on the Dunottar Castle last night and lands this morning. Cape Town has prepared an elaborate welcome. A large number of troops are expected to follow Buller in short order, and by the middle of November the entire army of 70,000 should be in the field ready for service. What Buller's initial move will be is unknown. Gen. White is certainly in dire need of reinforcements, while Mafeking, Kimberley and several smaller towns are besieged and in danger of being taken any day. Gen. Buller will not have any considerable fresh troops for a week yet, but as soon as he is acquainted with the general situation he will make plans, to be fulfilled as fast as troops arrive.

Kimberley reports of last Thursday say all was quiet, but the Boers, who on the Wednesday previous had left Windsorton, Klipdam and other points they had been occupying north of Kimberley, were reported as having returned to Kimberley.

Durban reports declare a large number of Natal Dutch have been assisting the Boers by carrying information. The large number of casualties among the British officers is believed to be due to their being pointed out by the Natal rebels serving with the Boers. The strictest secrecy is maintained in Durban regarding the arrival of troops and the departure of troops, yet the Boers are known to be promptly advised of every move.

Paris, Oct. 31.—A prominent French official says that British force, money and men can conquer the Transvaal, but the nation will have to pay for its success by a series of checks it will meet in Asia, as Russia will take and hold Afghanistan and perhaps Peking. He also says it is not known how soon the battalions of the Caucasus will receive orders to advance toward the Bosphorus or toward Teheran. The Russians' demands will be all in Asia, and will leave Africa for the French. He concludes by saying that as Count Mouravieff will see the czar before the latter meets the emperor of Germany, the emperor may have some serious decisions to make before visiting his grandmother.

Armistice at Mafeking.
London, Oct. 31.—A dispatch received here from Pretoria, under date of Oct. 28, says Gen. Cronje, the Boer commander, announced that the British garrison at Mafeking made a bayonet attack on Commandant Louwisaager, near the grand stand, but was repulsed, leaving six dead on the field, and it was believed that many of the attacking party were wounded. The dispatch adds that Saturday morning Col. Baden-Powell asked for an armistice in order to bury the dead. Gen. Cronje consented to this, the Boers assisting in placing the dead in the wagon going to Mafeking.

Fear Natives in Natal May Rise.
London, Oct. 31.—The New York Journal correspondent cables: "The government is anxious over the reports of the hostile attitude of the natives in Natal. A large reservation near Ladysmith is inhabited by the blacks, and news of current events passes by word of mouth with astonishing rapidity throughout the reservation. The government hopes the natives will not hinder the progress of the British arms. There are no signs of an uprising yet in favor of either the Boers or the British."

No Hope for Intervention.
Paris, Oct. 31.—The Echo de Paris prints an interview with Dr. Leyds, the Transvaal agent in Europe, who expressed the opinion that the impending action at Ladysmith would be a decisive one. Dr. Leyds added that, although Europe sympathized with the Boers, he was aware of the fact that the powers would not interfere if the Boers were beaten.

Germany Refuses to Be Involved.
Berlin, Oct. 31.—The Boersens Courier says: "The repeated foreign efforts to inveigle Germany into interfering in a question absolutely foreign to her national interests have palpably the sole object of discrediting her policy. Germany declines the role of acting manager in foreign interests detrimental to her own."

Railroad Round Mafeking.
London, Oct. 31.—The Cape Town correspondent of the Daily Mail says he learns that Col. Baden-Powell, the British commander at Mafeking, has laid a railway in a complete circle around Mafeking and is running armored trains around the town, ready to meet the Boers at any point.

Germany Mobilizing Cavalry.
Berlin, Oct. 31.—Sensational reports are in circulation here, alleging that Germany is secretly mobilizing all her cavalry. Popular opinion connects the movement with the talk of a coalition of continental Europe against Great Britain, but for this idea there seems little foundation.

Canadians Off for the Cape.
Quebec, Oct. 31.—Thousands of people from all over Canada attended the inspection of the Canadian regiment for the Transvaal on the esplanade Monday. The troopship Sardinia, which sailed with the troops, will proceed under convoy direct to Cape Town.

Portuguese Troops Arrive.
London, Oct. 31.—A special dispatch from Lourenço Marquez says a strong force of Portuguese troops has arrived on the Transvaal border from Mozambique territory, owing to fears regarding the hostilities between the British and Boers.

Kimberley Still Safe.
London, Oct. 31.—The latest news from the western border has apparently reassured the British authorities as to the ability of Kimberley to withstand assaults.

Kaiser Goes to Windsor on Nov. 20.
London, Oct. 31.—Emperor William of Germany has arranged to arrive at Windsor castle on Nov. 20. Extensive preparations are now making there for his visit.

Eighty Killed at Elandsbaag.
Cape Town, Oct. 31.—One of the Free Staters who was engaged in the battle at Elandsbaag says there were eighty Boers killed in that conflict.

St. Louis Robbers Get \$50,000.
St. Louis, Mo., Oct. 31.—Robert P. Jennings, secretary-treasurer and general superintendent of the Broadway Cable company, was robbed of \$1,043 in cash and \$48,750 in checks on a Broadway car Monday afternoon. An envelope containing the money was taken from his pocket. Two men were concerned in the robbery. The money was to be used in paying the wages of the street-car company's employees.

Charles J. E. Parker is ill.
New Orleans, La., Oct. 31.—Charles J. E. Parker, the billiardist, was stricken with paralysis Monday evening. He is in a precarious condition.

REPEL INSURGENT ATTACK.

Troops Under Col. Bell Win a Small Victory.

AMERICAN SOLDIER KILLED.

Capt. French and Lieut. Ferguson Slightly Wounded—Cabanatuan in Our Possession—Gen. Young in Difficulties.

Manila, Oct. 31.—A troop of insurgent cavalry made a fierce attack upon a detachment of the Thirty-sixth volunteers that was reconnoitering between Lubao and Floridablanca. The detachment was commanded by Capt. Charles French. The Americans stood their ground, and before the Filipinos retired the latter had lost three officers and eight men.

The news of the attack reached Col. Bell, in command of the Thirty-sixth volunteers, and he hurriedly dispatched Major William H. Bishop with two companies to Capt. French's assistance. Just as the reinforcements arrived, the Filipino cavalry, which was commanded by Major Pedro Salvador, resumed the attack.

The Americans charged the troop and scattered the horsemen. Major Salvador was killed and a number of his men wounded.

Capt. French and Lieut. Ferguson of the American troops were both wounded during the engagement, but their injuries are not serious. One American soldier was killed.

Cabanatuan Is Taken.

Manila, Oct. 31.—Major Ballance's battalion of the Twenty-second infantry entered Cabanatuan yesterday, meeting with no resistance. The natives welcomed the Americans, shouting "Viva los Americanos." The insurgent troops had fled to the mountains.

Gen. Bates will be appointed military governor of the Mohammedan islands, with headquarters at Jolo, until Zamboanga is occupied. Gen. Fred Grant will command Gen. Bates' brigade.

Bell Given a Free Hand.

Manila, Oct. 31.—Col. Bell has been given a free hand around Bacolor. He has sixty mounted men scouring the country daily, and they are killing many Filipinos to skirmishes. Gen. Young, with the infantry, is advancing upon Cabanatuan under difficulties. The country is furrowed with rivers and deep ravines, the bridges over which have been destroyed; the mud is deep, rations are short and the transportation of supplies has been delayed by low water and the poor condition of the roads. The Spaniards report that there are no insurgents at Cabanatuan.

It is reported that Aguinaldo and the Filipino congress are still at Tarlac. There are about 500 insurgents before Angeles. They have been quiet for the last week. Two thousand rebels are at Bamban, five miles to the north.

Gen. Bates has been recalled from San Fernando and ordered to sail for the southern islands as soon as possible.

DRINK GRAIN-O

after you have concluded that you ought not to drink coffee. It is not a medicine, but doctors consider it because it is healthful, invigorating and appetizing. It is made from pure grain and has that rich, soft brown color and taste like the best grades of coffee and costs about as much. Children like it and thrive on it because it is a genuine food drink containing nothing but nourishment. Ask your grocer for Grain-O, the new food drink. 35c and 25c.

Fashionable Evening Dress

Is no longer the monopoly of the merchant tailor. That which we have ready to wear is made from fine English Broadcloths, Crepe, Vicunas and Undressed Worsteds, in absolutely correct shapes, excellently trimmed and tailored, and ready to wear at a moment's notice.

If you have evening clothes made to order, you will have to submit to many annoying fittings, alterations and in the end may perhaps be disappointed with the result, though your tailor will just the same send his bill for \$75 to \$100, according to his reputation.

Here, you are fitted properly at once, with as good or better clothes, and at what a saving of time and money! And afterward, if you're dissatisfied, your money back.

Evening Dress Suits, from \$25 to \$45.

Tuxedo Coats of the same fabrics, \$25 to \$30.

Iverness Cape Overcoats, from \$25 to \$40.

The proper things in Gloves, Ties and full dress Shirts.

Smoking Jackets, Jersey House Coats, Bath Robes.
